INTRODUCING THE SLIM

Who says being extremely slim isn't good? The Slim is light in weight, strong, exhibits flexural strength, easy to handle, cut or drill. In short, this extremely slim tile is the best high thing that could have happened to your living spaces. An innovation that is class-apart, The Slim is just 5 mm in thickness, and is equally ideal for exteriors as it is for creating beautiful spaces from the scratch. Simply put, it is sheer beauty... in the slimmest form.
